- Tap shoes for tap classes (no split sole tap shoes please, once feet have stopped growing we recommend investing in a high quality pair of Oxford style tap shoes)
- Tennis shoes/sneakers for hip hop classes (these shoes need to be specific to dance class, please do not wear your dance shoes outside)
- Historically and culturally speaking what you wear for tap and hip hop should be an expression of self, this is the reasoning for the relaxed dress code.

Adults

- Dress code does not apply to adult classes, adults please wear whatever you are comfortable dancing in with the appropriate footwear. However, if an adult is taking a non adult specific class please adhere to the dress code.

*At FLEX we support gender neutral dress, for any questions please email flexperformingarts@gmail.com

*Close fitting clothing is important for certain classes such as ballet and jazz in order for the instructor to make sure dancers have proper alignment and technique. Instructors need to make sure students are holding and moving their body in the proper way to support the health and safety of the dancers. For this reason our dress code is mandatory for all students. However, if dancers are uncomfortable with this for reasons of insecurity, body dysmorphia or body dysphoria please speak directly to Brianna or email her at flexperformingarts@gmail.com. Let's work together to figure out a solution. We don't want body image to be the reason someone doesn't dance. Any and all exceptions to the dress code need to be approved by Brianna.
